Submission to the Town of LaSalle Council meeting May 11, 2021

Counsel Made a decision not to permit a sidewalk in front of 2308 Normandy. My recollection is that the Motion to reconsider that decision was made because Council was advised by Administration that the developer Tony Rauti would not have to build any sidewalks, even within the Richmond Court and Sovereign subdivisions and secondly that because there was a land swap as part of the Richmond subdivision development, that land acquisition was also in jeopardy.

Based on the recent report by Peter Marra, I see no reference to any effort having been made by administration to uncouple the sidewalk in front of 2308 Normandy from the other requirements in the Richmond Court subdivision agreement. Therefore you still have two conflicting documents, the first being the severance agreement registered on title to 2308 Normandy which specifically references that there is no sidewalk on town property fronting on Normandy, and the subsequently negotiated subdivision agreement for the Richmond development which has a requirement that the developer install a sidewalk in front of 2308 Normandy, in contravention of the severance agreement.

As previously outlined in my submission last Fall the Severance Agreement for 2308 Normandy, requires that any Change to the Agreement required Consent of the Parties. Now that document is registered on our title, The Town requires our Consent to change the Agreement and put in a sidewalk . We do not Consent.

When we built our home we asked for a circular drive, which the Town denied because it was not allowed as per the Severance Agreement.

When we built our home we asked for access to Richmond Street, which was denied because it was not allowed in the Severance Agreement.

It was suggested that the Severance Agreement has nothing to do with Town property. That is false. The Agreement has specific reference to “no sidewalk” and also a reference to a sidewalk on the west side of our lot on Richmond, also on Town Property.

We are asking that Council abide by its own Severance agreement, just as we had to abide by the Severance Agreement.

We are also of the view that stop signs on Normandy at Richmond and also at Sovereign are much safer for all pedestrians. Vehicle traffic is much too fast on Normandy, and stop signs better promote safety for both motorists and pedestrians. That also provides safe access to the existing pathway and sidewalk on the south side of Normandy.

Respectfully submitted

Craig Stevenson / Diane Wilson
