That the Government of Ontario ensure communities living in proximity to the Fermi and The Davis-Besse nuclear stations be accorded the same level of funding, support and public safety as communities living near the Ontario-based Bruce, Darlington and Pickering nuclear stations;

That the Government of Ontario include requirements in its updated Provincial Nuclear Emergency Response Plan (PNERP) for funding, public education and pre-distribution and availability of potassium iodide (KI) pills for communities living in proximity to the Fermi and

Davis-Besse nuclear stations equivalent to requirements for Ontario-based nuclear stations;

That the determination of KI pre-distribution and availability to communities living in proximity to the Fermi and Davis-Besse nuclear stations be informed by publicly available severe accident modeling and international best-practices;

That the Government of Ontario require provincial authorities to regularly identify vulnerable communities within the provincial Secondary Zone and prepare emergency measures, adapted to their needs;

That the Government of Ontario adopt a policy of requiring provincial authorities to inform residents, businesses and institutions in the secondary zone of the availability of potassium iodide pills at no cost to those residents, businesses and institutions, and the desirability of including those pills in personal or institutional emergency kits;

That the Government of Ontario include new requirements with the PONERP for transparency and regular public review, especially with affected communities;

That the Government of Ontario ensure adequate measures are in place to protect drinking water and in the event that an accident at a Canadian or American-based reactor contaminates the Great Lakes, as well as contingency plans for incidents that may occur;

That the Government of Ontario adopt a policy of striving to meet international best practices in nuclear emergency response and planning measures wherever feasible;
