Opposition to the Proposed Fire Station, Community Room, and Redesigned Park on Hazel Street

Petition Contact Person- Anna Dean 5197

"The purpose of this petition is to request that council deny approval for the proposed fire station, community room and redesigned park to be built at John Dupuis Park on Hazel Street and subsequently enter into a process to identify a more suitable location for this development."

Petition Notes:

Who participated in collecting signatures? Many LaSalle residents participated in collecting signatures including Collette Sanford, Erin Edgar, Dave Edgar, Laurie Jones Bigness, Ed Bigness, Denise Crewe, Ali Peters, Anna Dean, Paul Stromme, Chris Knight, Lori Knight, Dana Pizzo, Rowena Deklaj, Annie Bondy and Nicole DeHetre.

How were signatures collected? Petition signatures were collected in three different ways. Volunteers who did not live close to the park but still felt passionately about the cause brought the petition to various neighbourhoods and knocked on doors, as well as work places. Residents who live across the street from the park or very near to the park and frequent the park regularly collected signatures from people who were visiting John Dupuis Park. Lastly, many of the signatures you will find in this petition were collected from people who knocked on doors in the neighbourhood surrounding the park. This method accounts for the bulk of signatures representing Superior, Huron, Lafferty, Bouffard, Laurier, Birmingham, Olcott, and Ulster.

Residents who live in close proximity to the park like Anna Dean, Erin Edgar, Dave Edgar, Laurie Jones Bigness, Ali Peters, and Denise Crewe went door to door to collect signatures in the 200-500 blocks of Superior, Huron, and Lafferty, the 300, 400 and 500 blocks of Bouffard, the homes on Birmingham Avenue and Olcott Avenue, the 100 and 200 blocks of Ulster, and the 300 and 400 blocks of Laurier. In many cases people were not home or did not answer the door. When we did find someone at home and asked if they would like to sign the petition opposing the proposed fire station, community room and redesigned park at John Dupuis Park, the overwhelming response was "Yes, I will sign that petition". Many residents voiced their displeasure with the plan citing their concerns for child safety, the loss of park space, as well as other negative impacts on the neighbourhood.

Results: In total 768 signatures were collected. This represents approximately 2.5% of LaSalle's 30,180 residents. Signatures were also counted by street name. The most signatures by far came from Huron Street and Superior Street. Our petition includes 91 signatures from Huron Street and 81 signatures from Superior Street. Other notable streets include 44 signatures from Lafferty, 52 signatures from Bouffard Road, 20 signatures from Birmingham Ave and Olcott Ave, 23 signatures from Ulster, 20 signatures from Laurier, 18 signatures from International, 19 signatures from Outram, and 14 signatures from Sacred Heart Drive. Many people from all over LaSalle signed this petition. **In total, 785 LaSalle**

residents were asked if they wanted to sign this petition. In total, 768 LaSalle residents (over the age of 18) signed the petition. This means that 97.8% of people asked to sign, oppose the proposed fire station, community room and redesigned park. Furthermore, there were 8 people who stated they were not against putting the fire station at John Dupuis Park and chose not to sign the petition. As well, there were 6 other residents who showed sympathy to opposing this proposal but cited a 'conflict of interest' as the reason they did not sign. Three residents declined to sign the petition citing they wanted more information before they could decide. Clearly, the overwhelming majority of residents in this area as well as residents across LaSalle disagree with this proposal and we ask that the town enter into a process to find a more suitable location for the proposed fire station and community room.
