**To:** Linda Jean  
**Subject:** Town Hall meeting on July 11th

Hi Linda,

Thank you for putting me on the agenda for the July 11th council meeting. For my 5 minutes I would like to discuss: "Concerns of the information contained within the Fire Master Plan Recommendation report".

- The geographical location selection was done on a 4km circle, further revised to compass points, and not on actual travel routes
- Whether software was used to assist with the determine the location (there is contradictory statements made in the report and a FOI request)
- Aspects of the critical analysis that was conducted 10 years ago.
- Whether an analysis conducted 10 years ago, is still valid today
- Locations of other "similar" fire stations in neighbourhoods next to parks for other municipalities.

If you need anything else, please let me know.

Thanks

--Pierre
